

EXT. BEACH - DAY/NIGHT

(His narration about how he met her)

Jellyfish

INT. BAR - NIGHT

AVERY

???

"How's the, uh.."

RACHEL

"It's a little better.

(smirking)

You want to try pouring your beer
on it too, maybe that'll.."

???

(laughing)

EXT. APARTMENT - NIGHT

They're drunk when friend tells him about the tech. He
entices her with it when they're drunk, but she soon forgets
about it and thinks it was pillow talk.

INT. LAB - DAY

They sign NDA's, maybe she doesn't, friend goes to grab hers
but gets caught up in conversation

She lets him go and walks out of the lab. He stares at her
as she walks off, teary-eyed, and a scientist asks him "Do
you still wish to proceed, ___?" he looks deep in thought
and looks towards the floor, CUT

(really shallow depth of field here, mostly close-ups)

* optional* -he's out of focus, comes home to find her keys
to his apartment and wedding ring on the table, in between
white flashes

EXT. OUTSIDE TABLE - DAY

"TWELVE YEARS LATER"

(Cheery music until he sits
down, then things get
dark) (Twist) He notices her at
a coffee shop table, but we
don't see his face until he
sits down (cinematic impact)

RACHEL

"I mean this is like some science
fiction movie, isn't it?"

???

"Not quite..."
()

Him: "You kept your word." Rachel: "You know me....I thought
I would've heard something about it by now." Him: (pauses)
"...Another couple years." She nods and half rolls her eyes.
Awkward pause Him: "For what it's worth, not a day goes by
that I haven't..." Rachel: (interrupting) "But that's the
thing, isn't it. Not a day has gone by.

Rachel: "But I guess, you didn't care enough to..." Him: "Or
I guess you didn't care enough to try."

Him: "You may be a minority soon." Rachel: "We'll see."
